

FACE tite

FAQ

WHAT IS FACETITE?

FaceTite is a new procedure that is comparable to a surgical facelift, without the scars.

FaceTite provides dramatic improvement in skin laxity on the face and neck, which was previously only attainable through a surgical procedure such as a facelift. FaceTite utilizes minimally invasive radio-frequency energy to melt fat and tighten skin.

WHAT KIND OF PROCEDURE CARE IS REQUIRED?

FaceTite is a minimally-invasive procedure performed under local anesthesia or light sedation. Post procedure, patients can go home and resume regular activities shortly after. Wearing a compression garment is required for best results.

WHAT AREAS CAN BE TREATED?

Any areas on the face and neck with saggy skin can be treated. This includes the double chin, jowls and other areas with deep lines and loose skin.

HOW IS THIS BETTER THAN A FACELIFT?

By avoiding an excisional facelift procedure, patients will be scar free and will benefit from reduced post-procedural swelling and discomfort. This is a less traumatic process with a natural looking final result.

HOW QUICKLY WILL I SEE RESULTS?

Results can be seen immediately, with best results noticeable after 6 months, and continuing up to 12 months.

MORPHEUS8

Description:

Morpheus8 is a new subdermal adipose remodeling device (SARD) that fractionally remodels and contours the face and body. Penetrating deep into the skin and fat, this morphs the aging face of body into a more desired smooth and sleek appearance, for all skin tones. Morpheus8 has the ability to penetrate deeper into the skin than any other microneedling device, going as deep as 4mm. Patient

BODYtite

Please use the below description and FAQ as a guide for what to add on your website landing pages. I would encourage you to add specifics about your practice and location to make them more unique. Using key words for your specific area will be helpful for SEO.

Description:

We all strive to look and feel our best. Diet and exercise are at the cornerstones of staying fit, but sometimes that is not sufficient. Now you have the answer: BodyTite.

With BodyTite, you can reduce fat without having to worry about sagging or wrinkly skin. Patients can now achieve surgical-like results with no large incisional scars, less downtime and long lasting, beautiful results.

F A Q

WHAT IS BODYTITE?

BodyTite is a great solution for individuals who are looking to reduce fat without the saggy, wrinkly skin. It also helps improve skin laxity after weight loss or due to aging.

BodyTite is a minimally invasive procedure that shapes, contracts and lifts without the scalpel or scar.

BodyTite uses RFAL (Radio-Frequency Assisted Lipolysis) technology that addresses some of the shortcomings associated with traditional liposuction or surgical body lifts.

WHAT AREAS CAN BE TREATED?

If you can imagine it, you can do it: stomach, arms, chest, knees and inner/outer thighs are some of the most common treatment zones. Multiple areas can be treated in one visit. Each zone will take approximately 15 minutes of treatment.

HOW QUICKLY WILL I SEE RESULTS?

Results can be seen immediately, with best results noticeable after 6 months, and continuing up to 12 months.

WHAT IS THE DOWNTIME?

Depending on the treatment area, downtime can be from 1-2 days up to 10 days.

BODYTITE EFFECTS:

BodyTite gently treats fat in stubborn areas while tightening the skin, helping you sculpt your body into its ultimate shape.

comfort is a major advantage of this device because of the sharper needles and tiny punctures it causes in the skin without tugging or pulling. M8 can be used for, but is not limited to treating wrinkles, acne scars, stretch marks surgical scars and more.

WHAT IS MORPHEUS8?

MORPHEUS8 is a fractional skin treatment that stimulates collagen production of the underlying layers of the dermis. By targeting the deeper layers of the skin, the building blocks will reorganize themselves in a natural anti-aging process.

WHAT AREAS CAN BE TREATED?

Morpheus8 can be used on any areas that can benefit from sub-dermal renewal. The most commonly treated areas include the lower face and neck. Areas of the face and body that exhibit wrinkles, discoloration or acne scarring are suitable for treatment.

HOW MANY TREATMENTS WILL I NEED?

Depending on your Morpheus8 treatment regime you can expect to have between 1-3 sessions.

HOW QUICKLY WILL I SEE RESULTS?

Visible results can be seen within a few days, but typically after three weeks the most noticeable results appear. Improvements continue up to three months after treatment.

WHAT IS THE BENEFIT OF FRACTIONATED ENERGY?

Fractionated RF energy is a scientifically proven method to reduce wrinkles and rebuild collagen and fat. It is minimally invasive, using a matrix of micro pins to renew deeper layers of the skin with almost no patient downtime.

CAN ANYONE USE MORPHEUS8?

The benefit of Morpheus8's color blind technology is that it can be used on all skin types. The unique properties allow even darker tones to be treated.

WHAT IS THE BENEFIT OF RF ENERGY?

RF energy heats the deep layers of the skin in a controlled way to revitalize the collagen. The treatment will improve skin complexion and texture for a more radiant and youthful appearance.

CAN THIS BE USED IN COMBINATION WITH OTHER TREATMENTS?

Yes, Morpheus8 can be used in the same treatment session, or a few days after other treatments.

WHEN CAN I PUT MAKE-UP ON AFTER TREATMENT?

Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness for up to 1 week depending on treatment parameters.

WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

Patients should moisturize the treatment area and avoid direct sun exposure. It is also recommended that patients use a good, broad spectrum sunscreen every day. In addition to reducing their future risk of skin cancer, sunscreens also reduce wrinkles and slow the aging process.
